

Cell Phones & Earbuds

This is a 1:1 device school. Each student has access to a computer. So there is no need to have a cell phone in the classroom.

Procedure

All electronic devices will be put away before entering the classroom. This includes earbuds. If a device is seen or heard a staff member will ask you to hand over the device until the bell rings at the end of the period. If a student hands over the device without disruption, defiance, disrespect, or profanity that student will get his/her phone returned when the bell rings at the end of the period. If a student refuses that student will be escorted to the office immediately with a referral to the Dean for disciplinary action.

Thank you for not having your cell phone out during class. This means device put away before entering the classroom and out of sight and not heard from bell to bell.

Thank you for putting your cell phone and earbuds away before entering the classroom!
